

Cornell Custom Homes, Inc.

“Building Dreams Into Reality”

Here are a few reasons why Cornell Custom Homes, Inc. is the preferred Luxury home builder in Vellano and the Chino Hills area.

Cornell has built more luxury homes in the community of Vellano and in the city of Chino Hills than any other custom home builder and has established a very reputable reputation and many relationships within Chino Hills area over the past 15 years of building quality custom homes.

We are currently building eight homes in Vellano, just recently three families have moved into their luxury homes in under the timeframe given, four of those homes are under various stages of construction and one breaking ground soon.

Our office is conveniently located right here in Chino (approx. 8 min. away) and we have a full time superintendent on site on a daily basis.

Offers bidding services with bidding done to homeowners specifications as well as specs on the plans and based off of this information gives a detailed spec sheet detailing what will be built into the home. Also a fixed cost of the total price will be provided to the homeowner from the beginning of the job so there will be no confusion as to the total price.

If hired before the plans are approved, we can help expedite the plans through plan check and relieve the homeowner of this duty (ask any homeowner who has done it themselves and you will know this is a valuable service). We have saved homeowners on average of at least a month when we are asked to do this service as well as all of their valuable time.

As a result of being the #1 custom home builder of choice in Vellano we can offer you the best price and quality from our sub-contractors who are skilled craftsmen in each of their individual field.

We at Cornell Custom Homes want to make this a very special and painless time in your life by building the highest quality home for the cost and can offer many suggestions during the construction process to help you design & build your dream home, just ask any of our past or current clients about our personalized services.

Has never been involved in any lawsuits either personally or in any business transactions, has never had a claim on it's liability insurance, has never had a job liened by a subcontractor hired by us to do work. This is almost unheard of in this industry and shows the character and integrity of this company over the years and into the years to come.

*Our Mission is to build your dream into reality!
We look forward for the opportunity to
bid & build your home!*
